## Meet new INKER's LATTE ART Cups!

The cup shape is the "best kept secret" of latte art. The idea behind our wide cup shape is to make it easier for a barista to pour steamed milk over the espresso shot to create perfect latte art. The large diameter, shallow depth allows you to get the pitcher close to the surface of the drink quicker before you start your swing.

## Upoznajte nove INKER LATTE ART šalice!

Oblik šalice najbolje je čuvana tajna latte umjetnosti. Ideja iza širokog oblika naše šalice je olakšavanje baristama da pomoću vrelog mlijeka stvaraju savršen latte art. Širok promjer i plitkoća šalice omogućavaju da se vrčić što bliže postavi do kave te se tako dobije na brzini i preciznosti izrade napitka.
